

INDUSTRIAL TECHNOLOGY WORLD ASIA 2026

Where Industries Connect
The Future is Made

October 27-29, 2026

Shenzhen World Exhibition &
Convention Center (Bao' an)

Co-located with

深圳机器视觉展

Industrial Technology World Asia (ITWA) is Asia's premier trade show for cross-sector technology integration and industrial transformation. Mega show has further expanded in scale this year under the strategic partnership between RX and the China Machine Vision Union (CMVU) to feature 8 flagship events spanning machine vision, advanced electronics manufacturing, NEV technologies, next-generation displays and advanced materials, showcasing cutting-edge solutions and fostering valuable connections. ITWA serves as a vital platform for international business collaboration and technological innovation, connecting upstream and downstream industries. It helps you seize opportunities in Asian markets, expand global partnerships and chart a new course for the future of industrial technology.

Date : 2026.10.27-29

Venue : Shenzhen World Exhibition & Convention Center (Hall 7, 9-16)

Estimated Show Scale:

180,000 sqm
Total Exhibition Area

3,600+
Total Exhibitor Number

170,000+
Total Visitor Number

5,000+
Total International Visitors

10,000+
Total TAP Buyer Number

100+
Total concurrent conference

Unlock Greater Cross-Industry Opportunities!

Shenzhen International AI+AR Smart Glasses Industry Expo

Exhibitor Profile:

Manufacturers of smart glasses finished products and core components, functional material suppliers

Target Buyers:

R&D, Design, Procurement and Manufacturing departments of smart glasses brands, original manufacturers and ODM enterprises

CMF Expo

Strategic Partner : “寻材问料®

Exhibitor Profile :

CMF, Sustainable Materials, Advanced Functional Materials, Cutting-Edge New Materials, Instruments & Equipment, Raw Materials

Target Buyers:

R&D, Design, Procurement and Manufacturing departments of terminal product brand owners, original manufacturers and ODM enterprises

China International Fluorine & Silicone Material Industry and Application Exhibition

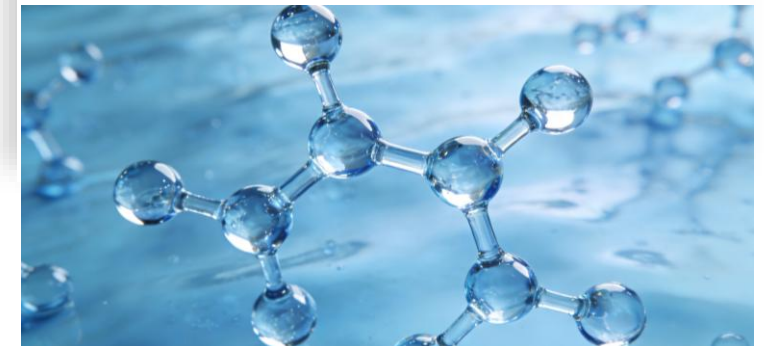

Exhibitor Profile :

Fluorine materials & high-end applications, silicone materials, silicon-based new materials, adhesive materials, high-performance materials, equipment and industrial parks

Target Buyers:

R&D, Design, Procurement and Manufacturing departments of terminal brand owners, original manufacturers and ODM enterprises

All-New 2026 !

Explore the Perfect Fusion of Future Manufacturing and Cutting-Edge Tech!

- **Lightweight Materials Exhibition Zone**
- **AI & AR Smart Glasses Innovation Showcase**
- **OLED Flexible Display Technology Innovation Showcase**
- **Micro LED & Optical Communication Innovation Showcase**

Show Value for Overseas Visitors

01 Get a 360° View of China's Industrial Tech Progress in One Place

ITWA is your single gateway to understanding China's full advanced manufacturing ecosystem—from semiconductor packaging & testing, PCBA assembly to finished-product automation. Walk the show floor to see how China's industrial tech has evolved from component supply to end-to-end smart manufacturing, and benchmark against global standards.

02 Source Cutting-Edge Solutions & Unlock New Market Opportunities

Discover tailored manufacturing solutions across high-growth sectors: Automotive, 3C Electronics, Industrial Control, New Energy, Semiconductors, and Humanoid Robotics. Meet China's top suppliers of cost-effective, scalable technologies, and tap into the world's largest advanced manufacturing market to expand your regional footprint and secure new business.

03 Solve Your Production Bottlenecks with Best Practices

Learn how Chinese manufacturers are mastering flexible production, low-volume customization, and cost efficiency—key challenges facing global factories. Gain actionable insights from process optimization case studies and expert-led sessions to streamline your own workflows and boost competitiveness.

04 Stay Ahead of Global Tech Trends with China's Latest Innovations

Witness 500+ new product and technology launches in emerging fields: Humanoid robotics, AI integration, and the low-altitude economy. Through component teardowns and deep-dive seminars, you'll see first-hand how China is shaping the future of industrial tech—and how to integrate these innovations into your product roadmap.

05 Learn from Industry Leaders & Bridge Knowledge Gaps

Join global experts across 100+ forums and workshops. Hear directly from pioneers driving Global industrial transformation and exchange best practices with peers from around the world to bridge the gap between global and Chinese manufacturing standards.

06 Build Strategic Partnerships with 170,000+ Global Professionals

Network with 3,600+ exhibitors and 170,000+ Visitors—including R&D, production, and decision-makers from OEMs and component suppliers. Forge long-term partnerships with Chinese tech leaders, access local supply chains, and position your business to capitalize on Asia's fastest-growing advanced manufacturing hub.

On-site Activities for Overseas Visitors

Overseas Visitor Group Tour

Customized tour based on purchasing demand. Specifically designed for international visitors, we will select the booth according to the products or solutions you are interested in or looking for.

- interpreting translation service

Factory Visit

A tailored itinerary organized annually by AWC for key executives from domestic and overseas car makers and tier-one suppliers. By visiting the factory in person, buyers will only witness the production process, quality management systems, and technological innovations from a close distance.

1 on 1 Business Matching

Make your show visit more productive! Customize onsite matchmaking meeting schedule for buyers. Provide Private face to face meeting room for buyer to meet with leading manufacturing suppliers.

Networking Mixer

International mixer is a unique opportunity to connect with professionals from diverse backgrounds and industries in an informal setting. Relationships formed at an event like this help stimulate discussion and possible business opportunities.

Hosted buyer Program (by invitation only)

The exclusive hosted buyer program offer 200 international visitors complimentary hotel rooms during your visit. First come First Serve!

Complimentary hotel rooms

(2 nights in Shenzhen during the Show)

Shuttle bus to pick up

(Shenzhen airport and send off (by schedule))

Networking Lunch

(2-day lunch coupon)

Factory Visit

(Chinese Local Leading factories)

Media Interview

(1 Local Media Interview)

VIP Visitor pass

(Exhibitions and for all onsite Conferences)

- Exclusive access to the show, no need to queue
- VIP lounge
- Business Matching
- Customized tour
- Daily Shuttle bus from hotel to exhibition hall
- Show gifts
- Group photo-taking on site with Banner

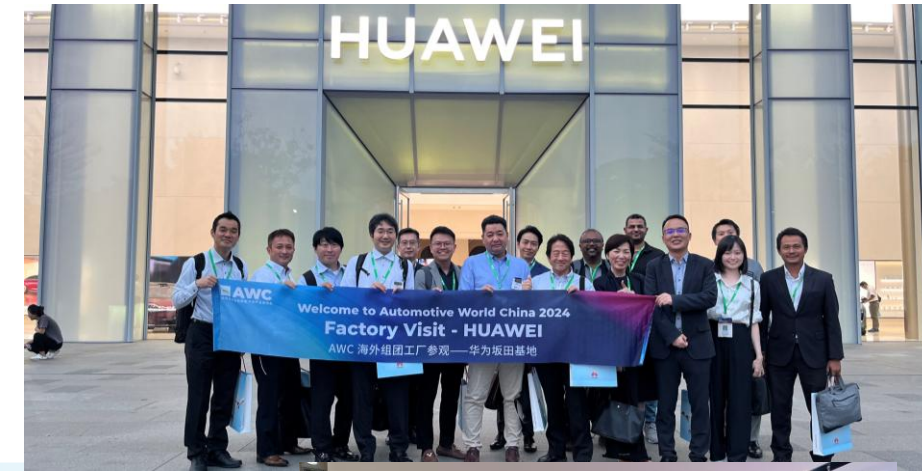

Complimentary For Overseas Visitor Group

Group Benefits Starting at 5 People!

- ✓ Daily Shuttle bus from hotel to exhibition hall and return from exhibition hall to the hotel
- ✓ Group visitor badges to enter NEPCON ASIA & ITWA
- ✓ Exclusive access to the show, no need to queue
- ✓ Group photo-taking on site
- ✓ Customized exclusive visiting route
- ✓ Conference delegate pass at all NEPCON conferences
- ✓ Business Matching
- ✓ Show Gifts
- ✓ Lunch Coupon\Free coffee Coupon

Bonus perk!

For groups of over **20+** attendees, we provide complimentary **round-trip tickets** for one person to the group organizer!

On-site Activities for Overseas Visitors

励展博览集团
同励百业·共展商机

SMTA International Forum

Jointly developed by Reed Exhibitions (RX) and the Surface Mount Technology Association (SMTA), this initiative is positioned as "Defining the Future of SMT Technology and Linking Global Industrial Intelligence", serving as a high-caliber, globally oriented professional exchange platform within the SMT sector.

【Target Audience】

Founders / CEOs of electronics manufacturing enterprises
Production & Technical Directors
SMT equipment & material suppliers
Core members of R&D teams
Industry analysts
Experts from universities and research institutions

【Previous Speakers】

- Dr. Charles E. Bauer, Member, SMTA Board of Directors
- Ng Ah Feau, Founding Chair of SMTA Penang Chapter, Management Consultant at TechMent
- Professor Wu Yiping, Renowned Expert in Electronic Packaging Technology, Honorary Dean of the Institute of Electronic Manufacturing

On-site Activities for Overseas Visitors

NEPCON ASIA • Eastern Europe Day

Connect Eastern Europe • Forge Intelligent Future – China-Eastern Europe Electronic Manufacturing Policy, Technology and Market Matchmaking Conference

- **Time:** 10:30-12:00 , October 27, 2026
- **Attendees:** Eastern European electronics manufacturing professionals (equipment agents, OEM/OBM factories); Chinese electronics manufacturing equipment suppliers, electronic material suppliers, EMS factories

Venue: Overseas Visitor Lounge, Shenzhen World Exhibition & Convention Center

Time	Session	Speaker	Key Content (English)
10:10-10:30	Sign-in	All Guests	Topcis
10:30-10:35	Welcome Speech	Project Director, NEPCON ASIA Organizing Committee	Welcome remarks, introduction of the event's core value and agenda, emphasis on China-Eastern Europe electronic manufacturing cooperation opportunities
10:35-10:55	Comprehensive Interpretation of Eastern European Policies and Regulations	Officers from Embassies of Hungary/Poland/Czech Republic in China	1. Latest EU electronics manufacturing regulations 2. Investment incentive policies in Eastern European countries 3. Electronic equipment market access procedures and compliance key points
10:55-11:10		Representatives from Hungarian Electronic Industry Association /Local Media	Overview of Eastern European electronic manufacturing industrial chain layout, capacity expansion plans, technological upgrading needs, supply chain localization strategies and international cooperation opportunities
11:10-11:30	Eastern European Factory Production Pain Points and EU Standard Challenges (Practical Cases + Solution Needs)	Production Directors of Representative Eastern European OEM/OBM Factories (e.g., Videoton, Hungarian electronic factory)	1. Factory production bottlenecks (flexible production of small-batch and multi-variety products, high equipment maintenance costs, labor shortage) 2. Pain points in the implementation of EU electronic manufacturing standards (difficulties in IATF 16949, AEC-Q, ISO 26262 certification) 3. Challenges in quality control and traceability system construction 4. Intelligent upgrading paths and budget planning
11:30-12:30	China's Electronic Manufacturing Technology and Solution Showcase (Cutting-edge Technology + Practical Cases)	SMT Equipment Suppliers, AI Automation Solution Providers	1. High-precision SMT production lines and intelligent testing equipment (quality control solutions compliant with EU standards) 2. Industrial Internet platform and digital twin technology (realizing production process transparency and traceability) 3. Sharing of successful China-Eastern Europe cooperation cases (e.g., intelligent transformation projects of Eastern European factories)
12: 30-13:00	Networking Lunch		

NEPCON ASIA • International Networking Mixer

Meet Key Players
Low-Pressure Socializing
Build quality connections

International mixer is a unique opportunity to connect with professionals from diverse backgrounds and industries in an informal setting. Relationships formed at an event like this help stimulate discussion and possible business opportunities.

- Date: 2026-10-27 16:00–17:00
- Location: Overseas Visitor Lounge
- Target Attendees: Overseas Visitors+ Exhibitors (limitation of 40)

Time	Activity	Purpose
16:00-16:02	Host Opening	MC
16:02-16:05	Welcome Speech	Senior Project Director of NEPCON
16:05-16:25	One-minute Self-intro	Association leaders lead introductions; delegates share Name + Company + Business Needs to align with potential partners
16:25-16:35	Group Photo + Lucky Draw	Capture the moment and win premium gifts
16:35-17:00	Find Someone Who	Networking to Win Extra Gift!

Where Industries Connect, The Future is Made
